(and you will still receive a certificate to save even more money with plant purchases at Jensen Nursey)

William (Bill) Dowie is happy to help you understand your landscape... Bill has visited hundreds of properties and can help you identify design opportunities – both softscape and hardscape... Bill is passionate about ecological design and permaculture. He is an Accredited Professional in green building and is a Manitoba Master Gardener. Having been formally trained by engineers, architects, and environmental professionals, Bill is adept at helping you see your landscape as part of your home – functionally, and aesthetically, integrated with nature and your family. Bill enjoys guiding you to think of possibilities and empowers you to design-build your new or old surroundings.
